DETAILED ACTION

1. The Terminal Disclaimer filed on 7/8/04 has been approved.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 35-36, 39, 42-50, 56-60, 62-64 and 67 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-27, 29-44 and 48 of copending Application No. 10/046,620. Although the conflicting claims are not identical, they are not patentably distinct from each other because the present claimed invention is broader than what was claimed in the copending application and all of the limitations of claims can be read on the patent's claims. For example, claim 35 of the present invention having a light source, a structure and a two-dimensional array detector which are corresponding to a light source, an optical assembly and a two-dimensional array detector in claim 1 of the copending application.

Application/Control Number: 10/602,555 Page 3

Art Unit: 2877

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Allowable Subject Matter

- 4. Claims 37-38, 40-41, 51-55, 61, and 65-66 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 5. Since only one rejection type (obviousness type double patenting) in the application, the application will be allowed if a proper Terminal Disclaimer is filed. Thus, the following is a statement of reasons for the indication of allowable subject matter:

There was no prior art found by the examiner that suggested modification or combination with the cited art so as to satisfy the combination of all the limitations in claims 35 and 60.

As to claims 35 and 60, the prior art of record, taken alone or in combination, fails to disclose or render limitations "....a specimen array in the evanescent field causing spatially distributed polarization changes in the cross-section of the light beam", "detecting the spatially distributed polarization changes cause by the specimen array" and "processing the detected spatially distributed polarization changes to provide an image of the specimen array", in combination with the rest of the limitations of claims 35 and 60.

Art Unit: 2877

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoa Q. Pham whose telephone number is (571) 272-2426. The examiner can normally be reached on 7:30AM to 6 PM, Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J. Toatley, Jr. can be reached on (571) 272-2800 ext. 77. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
